PROFESSIONAL SUMMARY

Full-stack developer with three years of MERN stack experience building business-focused web applications. I specialize in understanding operational bottlenecks and delivering tools that improve efficiency and profitability. I partner with founders and teams to translate business goals into scalable solutions, not just write code. Seeking a mid-level role where I can contribute to product strategy and growth.

EXPERIENCE

Solution Provider

Full-Stack Developer 06/2024 – Present | Tejgaon, Dhaka

- Developed and deployed a full-stack web application to control and monitor machine operations, bridging software logic with physical workflows
- Took complete ownership of system architecture, backend APIs, frontend UI, and deployment pipeline to ensure reliability in production
- Worked with stakeholders to map business requirements into efficient digital solutions and technical roadmaps that save time and eliminate repetitive tasks
- Supervised a small team of developers, keeping everyone aligned with client business goals and delivery timelines

Web Developer 12/2023 – 05/2024

- Led a small development team, distributing tasks and reviewing code to maintain quality standards
- Acted as the primary technical point of contact for clients, clarifying requirements
- Engineered full-stack solutions with React, Node.js, and MongoDB that streamlined operations and generated measurable ROI for clients

Web Developer, Inspire IT Academy 12/2022 – 12/2023 | Remote

- Developed interactive and responsive web applications using WordPress, React, and modern frontend tools
- Collaborated with the marketing team to set up Meta Pixel, server-side tracking, and test conversion events

Web Designer, Freelance IT Lab 09/2021 – 01/2022 | Mymensingh

- Created clean, user-friendly HTML/CSS templates based on client needs
- Focused on making designs that were easy to navigate and matched the client's brand
